Mr. Blackwood highlighted the significant revenue growth and the company's first profitable quarter. The board discussed the positive trajectory and the successful closing of the Series A funding round.

4. Post-Series A Update

Elena Rodriguez provided an update on the company's progress since closing the Series A funding:

- Key hires have been made in engineering, sales, marketing, and customer support.
- The office expansion is underway, with a new space secured to accommodate the growing team.
- New project management and CRM systems are being implemented to streamline operations and improve efficiency.

5. Product Development and Commercial Rollout

Dr. Rachel Chen reported on product development and commercial installations:

- The first commercial installation was successfully completed in July, with positive feedback from the customer.
- The R&D team is finalizing the design of the new residential turbine model, with testing expected to begin in Q4 2023.
- Manufacturing capacity is being ramped up to meet the anticipated demand for both commercial and residential models.

6. Marketing and Business Development Update

Sarah Johnson and Thomas Lee presented updates on marketing and business development:

- The digital advertising campaign launched in Q3 has generated a significant increase in website traffic and qualified leads.
- UrbanWind has been featured in several media outlets, raising brand awareness and generating interest from potential customers and partners.
- The sales pipeline has grown to \$8 million in potential contracts for 2024.
- The team is exploring international expansion opportunities, with initial focus on the European market.

7. 2024 Budget and Strategic Planning

Marcus Blackwood presented a preliminary budget for 2024, projecting revenues of \$8 million and expenses of \$7 million. The board discussed the budget and agreed to review a more detailed version at the next meeting.

Elena Rodriguez led a discussion on the strategic plan for 2024, focusing on:

- Launching the residential turbine model.
- Scaling manufacturing and operations to meet growing demand.
- Expanding into international markets.
- Continuing to invest in R&D to maintain a competitive edge.

8. Corporate Governance
